|---|-------------------------|--|
| 1 |                         | Mayor Hutchings brought the meeting to order at 7:03pm   |
|   | <b>TONIGHT'S AGENDA</b> |  |
| 2 |                         | Discussions regarding snow clearing Cavell's Lane. There is an issue with the width of this lane which makes this lane very difficult, if not impossible to navigate in order to snow clear with regular snow clearing equipment. In order to make the lane safer and easier to plow the lane would have to be widened. This would be an extremely expensive undertaking and not something the Town can look into taking on at this time. There were concerns raised about the safety of snow clearing this hill along with the safety of the home that sits at the end of this lane. T & D Transport will send the Town a quote to snow clear this lane, as this may be something Council will look at doing next year. |
| 3 |                         | T & D Transport also asked if there is a possibility the town could look into putting the snow clearing tender out for 2 – 3 years. This would make it more appealing for contracts in order to purchase machinery and also may have a financial benefit to the town. Council will look into this for next year. Staff will call Municipal Affairs to see if this is something the Town can do.  |
| 7 |                         | Meeting adjourned at 7:40  |
