	TONIGHT'S AGENDA		
11		Request to discuss changing location of right of way at 54-56 Cribbies Road. Mr. Larry Chafe was present in chambers to discuss this issue. Mr. Chafe noted that he would like to have the pathway to watch hill that is on the land he acquired from Crown Lands moved. Mayor Lee noted that this pathway was a condition of Mr. Chafe acquiring the land when he purchased it through Crown Land and should stay on the property. Mayor Lee noted that the pathway could possibly be moved but would have to stay on the Mr. Chafe's property. Mayor Lee also noted that if the pathway was to be moved off the property it would have to be approved by Crown land and go out to the public for comment. There was some discussion on moving the pathway to the back boundary of the property. Councillor Chafe asked why the town is getting involved in this right of way when it doesn't get involved in any others. It was noted that this was a pathway/right of way that the town implemented on this property through the Crown Land application and that is why the town is involved.	

	T	Motion #179 Sam Stack/David Green
		Proposed to allow the property owner to move the pathway/right of way on the
		survey to the back boundary of the property at the property owner's cost. Once the
		final survey is completed council will review for final approval. Mayor Lee, Deputy
		Mayor Stack, Councillor Hearn, Councillor Raymond and Councillor Green in
		favor. Councillor Chafe not in favor. Motion carried.

		Hearn was present in council chambers to discuss the application. Mr. Hearn
		distributed some old pictures of the area for council's review. Mr. Hearn also gave a
		history of the area. Mr. Hearn stated that he has a right of way to his property and he
		is being blocked from accessing his property. Mayor Lee noted that himself and the
		foreman inspected the area and there were very few markings. Mayor Lee stated
		that they went by the measurements on the application and they had no issue with
		the application. Mr. Hearn noted that the fence will be a traditional Newfoundland
		fence constructed of posts and longers. Mr. Richard Clarke was present in chamber
		and asked to speak on the buildings that are currently on this property. Mr. Clarke
		asked how council could approve a building on this property and he also asked where the washroom facilities were on the property. Mayor Lee stated that the
		applicant had a registered deed on the property and that is why they were given an
		approval. Mayor Lee also informed Mr. Clarke that the washroom on this property
		was located in the building at the front of the property. Ms. Janet Hamilton was also
		present in chamber and asked to speak. Ms. Hamilton stated that the chain link,
		fence that is currently erected in the area is not tight to the ground and this allows
		her dog to get underneath the fence. She noted it causing a problem for her as she
		cannot get past the fence to retrieve her dog. Ms. Hamilton also note that the
		building at the tip of the property is bigger than the original building that was there.
	ļ	Ms. Hamilton stated that the fence will cause snow clearing issues. Mayor Lee
		stated that animals should not be running free and should be on a lease. Ms.
